SOLDIER BROKER HOME, GREETED AS A HERO

NEW YORK, July 27.—One year ago William H. Wallace, Jr., was sent from the New York Stock Exchange for twelve months. Having nothing in particular to do, Mr. Wallace sailed for France and shortly thereafter sailed into the Germans under French colors. He became such a good soldier that he was soon made an officer, and in the twelve intervening months won several medals and honors.

The stock exchange welcomed him back on the floor yesterday and he was gladly received by his fellow brokers. The exchange officials announced that his name had been placed on the honor roll of men from the New York Stock Exchange who are rendering distinguished service during the war.

Mr. Wallace, with his partner, John Jerome Kelly, was suspended from the stock exchange on July 13, 1916, for "actions inconsistent with just and equitable principles of trade." Kelly was suspended for sixty days and Wallace for twelve months.

SEARCH WORLD TO FIND HEIRESS TO \$110,000

CHICAGO, July 27.—Attorneys and executors of the estate of Mrs. Eva Wagner, wealthy Ottawa (Ill.) woman, today began a world-wide search for a girl seventeen years old, who was whereabouts is unknown even to her only living parent and who is an heir to a \$110,000 estate. The search is expected to begin in Rome, Italy.

Mrs. Wagner left her estate to the children of her daughter, Adeline Werner Lee, wife of Burton C. Lee, Chicago. Until today it was believed the only child was a boy, Russell, fourteen years old. Mrs. Lee obtained a divorce and was killed in an automobile accident in 1914.

Why You Should Never Pare a Corn

If you are troubled with corns or calluses, do not run the risk of blood poisoning by paring them. Statistics show that many deaths have occurred from this seemingly innocent practice of paring corns.

Simply go to your druggist and get a few cents worth of Ice-Mint, rub a little on a painful corn or callus. Immediately the pain will disappear and in a short time the corn or callus will loosen and lift off easily with the fingers—root and all—leaving the surrounding skin in a healthy, normal condition.

This, together with the fact that Ice-Mint does not cause chafing or sore, tried, aching, puffed or burning feet and makes them cool, easy and comfortable, is probably responsible for the hearty endorsement given it by druggists.

To rid one's feet of every hard corn, soft corn, corn between the toes or painful calluses in such a pleasant and safe way, makes it seem the height of folly for anyone to pare a corn, and people are warned to stop it.—Adv.

MARS HITS STYLES; U. S. TO CENSOR MILADY'S SHOES

By MARGARET MASON.

NEW YORK, July 27. Not even contented with censoring news And foodstuffs and dyestuffs and most of the booze The War God's now threatening to censor our shoes.

Dame Fashion may set the styles, but alas, old Man Mars upsets 'em. At least, he's getting ready to, and by fall it looks as though we would have to dress by governmental rule rather than the latest hints from Paris.

Over in Germany, where the women are all frumps anyway, it can't be much of a hardship that the government has regulated just how and what they shall wear for the last year or two.

Even in England the government has taken a hand in the shoe proposition. They have begun at the foot and decreed that shoes shall not exceed seven inches in height, because the cost of leather is so much higher. Considering the looks of most Englishwomen's feet even before the war, that doesn't somehow seem to upset me much.

American footloose is another matter, indeed, and here's where the shoe pinches. There's a special board in Washington that is going to regulate what goes on our feet and our backs and our heads, and the looks of the board is quite as important as the board to regulate what goes into our tummies.

The most noticeable type of shoe around the board itself these days is the gum shoe, for there is much hushing and mystery stuff with which to cover up their deep dark plans. They explain this secrecy by pointing out that if they made known these reforms and regulations precipitately there would be a great waste entailed because of the models that the manufacturers have already made up far in advance for the coming season and of those models with which the retailers are already stocked up. The idea is to keep all plans dark until the shoes now on hand are on foot and then break loose with the sweeping reform. In the interim the board and the shoe manufacturers and retailers are busily whispering together and agreeing on a few simple serviceable model shoes that will take the place of all the past mad riot of extravagant footwear that has pinched our pocketbooks as well as our feet.

This doesn't mean, of course, that there will be one plain, heavy style of shoe that every one will be forced to don for all and every occasion. The board promises an adequate assortment of attractive and dainty shoes for all walks and dances of life.

ARRESTED FOR SPEEDING TO OVERTAKE SPEEDERS

Judge Who Turned Cop Found Guilty of Violating Law.

NEW YORK, July 27.—Harlan S. Brown is a justice of the peace at Kearny, N. J., and is also a special policeman. When business is a judge gets slack the judge hits the police trail.

Monday the judge took his automobile and rounded up five speed enthusiasts. He halted them before Acting Police Justice Cooper, who fined them after Brown testified they were going upward of thirty-five miles an hour, by his new speedometer.

The activities of the judge incensed Motorcycle Policeman Bill Partridge, as he considered they were infringe on his duties. He complained to Police Justice Souter, and last night Judge Brown was arrested for speeding.

At the trial it was readily proved he must have broken the speed laws himself when he caught the five speeders, and he was found guilty. Sentence was suspended.
